

FOR IMMEDIATE RELEASE

F.W. Webb in partnership with NextGEN Energy Solutions

Bedford, MA, December 21, 2009 -- F.W. Webb Company, headquartered in Bedford, MA, has announced a partnership with NextGEN Energy Solutions to market state-of-the-art technology—energy-efficient Aermec Air—to water heating and cooling solutions.

F.W. Webb Company is the largest distributor of HVAC products in the region, and this partnership signals Webb's long-term commitment to providing and distributing premier cost-effective "green" technologies for its customers through 70+ locations covering seven states. NextGEN Energy Solutions is the U.S. marketing and distribution partner of Aermec, an Italian-based commercial and residential energy solutions company with a long-standing tradition of technological innovation and environmental leadership.

"The Aermec system is a singular component of our commitment to increase environmentally and economically responsible initiatives," said John Thomas, Vice President of HVAC/R & Controls at F.W. Webb Company. "We are committed to technologies that promote energy efficiency, reduce the use of fossil fuels, and deliver affordable long-term results to installers and consumers."

Chip Curtis and Bob Kimball, owners of NextGEN Energy Solutions LLC, defined NextGEN's mission: "Motivated by the trailing position of the United States with regard to energy-efficient solutions for all applications, we at NextGEN are committed to bringing proven global technologies to market in this country, **with a keen eye towards efficiency, reliability, return on investment and ease of use.** F.W. Webb, with its broad regional reach and outstanding reputation, is exactly the right partner for NextGEN and Aermec, and we look forward to working with the company and its partners."
