Signature WORKSHOPS

HVAC Duct Sizing & Design (NO MORE MAGIC)

THURSDAY, NOVEMBER 1, 2007

5:00 p.m. for Light Supper • Class from 5:30 p.m. to 7:30 p.m.
F.W. Webb Co. • 302 Hounsell Ave. • Gilford, New Hampshire 03239

A workshop designed to take the 'magic' out of duct sizing and design. This workshop will focus on the 'extended-plenum' method of residential duct system design. Particular attention will be placed on:

- Math Formulas as applied to duct systems
- Diffuser, how and why they do what they do.
- Layout of HVAC Duct Systems
- Vocabulary
- Use of the Duct-u-lator
- Troubleshooting HVAC Distribution Systems

Those attending need to have a solid working knowledge of 6th grade arithmetic and 8th grade science. Pocket calculators will speed the students grasp of formulas and their results; please feel free to bring one.

This is an '*interactive workshop*' and questions will be encouraged. Be prepared to ask questions relating to the topic.

Course materials will include:

- Workbook
- Duct-u-lator
- Engineering data on diffusers, grills and registers

PRE-REGISTRATION IS REQUIRED. THERE IS NO FEE FOR THIS WORKSHOP

DON'T MISS OUT ON A GREAT TRAINING OPPORTUNITY!

This course will fill up fast so register today.

Call 603-524-9322 or send E-Mail to: KRM@fwwebb.com to reserve your spot!
