

## Do you have a planned outage?

F.W. Webb is one of a very few distributors in the Northeast stocking Chrome-Moly pipe, valves and fittings. Available in sizes 1/2 through 2 inch, our P22/F22 PVF is designed for use in your high temperature/high pressure power generation applications.

### Now Stocking:

#### **Seamless Pipe, Sch80 and Sch160** (ASTM/ASME A/SA335 P22)

Featuring alloy-steel, chrome-moly material, this unique pipe composition offers superior strength and ductility. It also enables resistance to corrosion and stress corrosion cracking. Plus, the specification makes it suitable for bending, flanging, fusion welding and similar forming operations.

#### **Socket Weld Fittings** (ASTM/ASME A/SA182 F22)

Offering a 3000lb and 6000lb rating that is compatible with Seamless Pipe Sch80 and Sch160.

#### **Forged Globe Valves, Class 1500 Y-Pattern** (ASTM A182 F22)

Used for throttling and flow control. Suitable for multiple applications.

Whether you have a planned or unscheduled outage, these new product offerings are readily available for fast delivery – often within 24 hours! Enjoy one-stop shopping for all of your project needs at F.W. Webb.
